

McQueen Targets is a division of the International outsourcing giant Sykes Enterprises Incorporated. McQueen Targets has been designing, creating, printing and supplying targets for recreational or specialised training purposes since the 1880's.

We have worked with a multitude of National and International organisations to constantly improve our product range for all shooters and training instructors whether they be civilian, Police or Military.

Civilian

An innovative partner and official supplier to the NSRA, NRA and various individual shooting clubs for over 100 years, we have vast experience in sourcing raw materials and creating quality image targets. This knowledge has improved shooting experiences and helped our customers expand the range of pistol and rifle targets used for competitions and leisure.

Police

The training requirements for today's Police forces are constantly evolving. We work closely with the Forces to understand their needs for new training targets for front line officers.

Military

McQueen Targets has worked with the UK MoD teams for over 60 years. All new weapons targets are NATO certified. New designs are created in consultation with the various authorities to ensure that training objectives are fully met.

Threat Assessment

McQueen Targets supply paper targets for the improvement of scoring accuracy and reaction time. Our 8000 series allows for different shoot/no shoot scenarios to be created. This is a unique overlay solution that provides a high quality, low cost, interchangeable training aid.

3D Humanoid

Our 3D humanoid dummies enhance the shoot/no shoot training scenario and are being used internationally by various specialised units. They are designed to absorb thousands of rounds of 5mm – 9mm calibre and come with interchangeable features and various appearances. The dummies hands are capable of gripping foam weapon accessories.
